

~~CONFIDENTIAL~~

DCI/IC 74-0359
27 March 1974

MEMORANDUM FOR:

SUBJECT : KEP

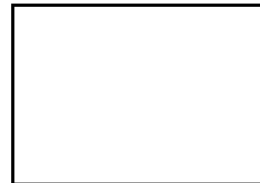

REFERENCE : Your memorandum dated 13 March,
same subject

1. Your question about KEP workloads, schedules, and computer support, is well taken. But it should be understood from the outset that our success in that undertaking in large measure depends upon concurrent progress in a number of other tasks.

2. As we now see it, the whole effort is doable with available resources--providing that responses to the CIRIS-74 data call are in reasonable shape and arrive by the end of April.

3. I am attaching a status report which sets forth the tasks and timing of the things that must be done, and matches our resources against the tasks.

Encl.
